Artline® low corrosion paint marker

Corrosion can be a common problem in manufacturing. The dissolving or rusting of metals as a result of chemical reactions between the metal and its environment may prove to be a costly setback. Our new ink formula, developed to our own strict standards, is designed to minimize the opportunity for corrosion to occur.

- low halogens
- low chlorides
- low melting point metals
- ideal for indoor and outdoor use on metal
- water resistant
- acrylic fiber nib
- fade resistant
- RoHS compliant

Shachihata Industrial Products

Xstamper® pre-inked industrial stamps

Make your mark almost anywhere with the pre-inked industrial stamps from Xstamper®. Our proprietary ink formulation is fast drying, permanent and water-resistant when fully cured. Uniquely designed caps are engineered to minimize ink from drying out, extending the functional life of the stamp. These stamps are ideal for marking any slick or hard to mark surface such as metal, glass, plastic, leather, gloss paper, etc.

Available in red, black, blue, green purple, white, yellow, and UV ink.
